

FRANÇOIS HANNES

Congratulations on your purchase!

Francois Hannes, He gets his inspiration from life. He does not choose the middle ground, but goes for the extreme. This is reflected in his designs. The dynamics of a metropolis or the tranquillity of a landscape and small things from nature. The pleasure of good food and drink. Business trips and holidays with his family. Important stimuli from which he draws energy and ideas.

Product specifications

Material **LIE DOWN** is a hand-tufted rug collection made of 80% New Zealand Wool and 20% Linen. The fibers are products of nature and as with all natural products, a slight deviation in texture and colour may occur between dye lots.

Maintenance

Regular vacuuming is crucial to clean your rugs and restore the pile, especially in high-traffic areas where wear and tear are common. Additionally, rotating rugs regularly ensures uniform exposure to light and wear across the entire surface. When furniture exerts pressure on the rug, consider using rug protection to prevent damage to the pile and preserve its overall appearance.

Maintaining the appearance of your rug requires regular cleaning. Opt for a powerful vacuum cleaner, ideally with 1200W of power, and vacuum in the direction of the pile. Bamboo rugs, in particular, should be cleaned regularly. Lighter rugs may require more frequent cleaning than darker ones. Avoid steam cleaning or methods involving significant temperature increases. For new zealand wool rugs, we highly recommend professional injection-extraction washing at low temperatures and pressures. For deeper cleaning, enlist the services of a specialized rug cleaning company.

Colour

Because of the nature of the quality each rug has its unique colour. The colour may differ and depend on each dye bath. Always avoid direct sunlight. Longer periods of exposure to direct sunlight will damage the rug and lead to discolouring.

Size deviation

Size deviations are up to about 3% possible. Because of the nature of this quality, this product can stretch a little bit.

Pile weight New Zealand Wool (kg/m2)

3

Total weight New Zealand Wool (kg/m2)

3,5

Colour fastness to light New Zealand Wool

4-5

Colour fastness to water New Zealand Wool

5

Pile weight Linen (kg/m2)
