

INDIVIPRO

CARPETS & RUGS

Congratulations on your purchase!

Indivipro carpets & rugs offers an extensive variety of quality carpets and tapestries, available in a wide range of materials such as wool, silk, linen, bamboo, viscose, polyamide and handwoven polyester, numerous color options, and available in almost all required sizes.

Product specifications

Material **TORONTO** is a hand-tufted rug collection made of 100% New Zealand Wool. The fibers are products of nature and as with all natural products, a slight deviation in texture and color may occur between dye lots.

Maintenance

Regular vacuuming is crucial to clean your rugs and restore the pile, especially in high-traffic areas where wear and tear are common. Additionally, rotating rugs regularly ensures uniform exposure to light and wear across the entire surface. When furniture exerts pressure on the rug, consider using rug protection to prevent damage to the pile and preserve its overall appearance.

Maintaining the appearance of your rug requires regular cleaning. Opt for a powerful vacuum cleaner, ideally with 1200W of power, and vacuum in the direction of the pile. Bamboo rugs, in particular, should be cleaned regularly. Lighter rugs may require more frequent cleaning than darker ones. Avoid steam cleaning or methods involving significant temperature increases. For new Zealand wool rugs, we highly recommend professional injection-extraction washing at low temperatures and pressures. For deeper cleaning, enlist the services of a specialized rug cleaning company.

Colour

Because of the nature of the quality each rug has its unique colour. The colour may differ and depend on each dye bath. Always avoid direct sunlight. Longer periods of exposure to direct sunlight will damage the rug and lead to discolouring.

Size deviation

Size deviations are up to about 3% possible. Because of the nature of this quality, this product can stretch a little bit.

Colour fastness to light

4 or above (1 – 5 scale). [very good]

Backing

The backing is made of polyester. Since it is used for the back side of the rugs there is no flame danger for backing as well. Polyester is a petroleum based material. This is as maximum eco-friendly as other petroleum based materials.

Anti-slip

Anti-slip is available separately in two different fixed sizes, as a roll for installation or fitted custom made to the carpet.

Extra information

Please do not store rolls packed longer than 3-4 weeks.

Warranty

Please refer to our regular terms.
